Day 02 - Arrival -Tarangire

After Breakfast we'll depart to Tarangire National Park. The park is named after the Tarangire River which runs through it. This 'river of warthogs' is the only source of water for wildlife in the region during the dry season. In some places, the vegetation is quite dense, including elephant grass, acacia woodlands and lush groundwater forest. The park is well known for its elephant families, which can often be seen congregating by the river. You may also see giraffe, bushbuck and hartebeest. These animals are closely followed by a range of predators, including lions and leopards. There are more breeding species of birds found in Tarangire National Park than anywhere else on the planet!

After lunch and an extensive game drive. Evening Drive to Karatu Town overnight stay.

Meals: Breakfast, Lunch, Dinner

Day 03: Tarangire - Serengeti

After Breakfast we will head towards the Serengeti. After a few hours of drive, we will arrive at the Serengeti gate. After lunch, we will do a game drive all afternoon in this beautiful park. The Serengeti is known for its endless plains of savannah and forest landscapes. The park is famous for the migration involving about 1.5 million herbivores and followers.

Serengeti is the oldest and most popular national park, also a world heritage site and recently proclaimed a 7th Worldwide Wonder. The Serengeti is famed for its annual migration, when some six million hooves pound the open plains, as more than 200,000 zebra and 300,000 Thomson gazelles join the wildebeest's trek for fresh grazing. Yet even

when the migration is quiet, the Serengeti offers arguably the most scintillating game-viewing in Africa: great herds of buffalo, smaller groups of elephant and giraffe, and thousands upon thousands of eland, topi, kongoni, impala, and Grant's gazelle. After Serengeti Game Drive Overnight stay at Serengeti.

Meals: Breakfast, Lunch, Dinner

Day 04: Central Serengeti

On this day after an early breakfast, you will do an early game drive seeing the sunrise, then head to explore various parts of the park depending on where the animals have migrated to, expect to see a lot of wildebeest and zebras in a strategic partnership for their survival, a lot of big cats are present in the park lucky enough you can witness a hunt action.

Meals: Breakfast, Lunch, Dinner

Day 05: Serengeti - Ngorongoro Crater Tour

On the Third Day after Breakfast check out from Hotel/Camp and we'll head to the Ngorongoro Conservation Area the Ngorongoro Crater has a diameter of about 20 kilometres and a 600 meter-high crater wall. The Ngorongoro Crater is the largest intact crater in the world. The crater life estimated 30,000 larger mammals. In the centre of the crater is a salt lake. This is one of the most densely populated wildlife areas in the world. It is a unique area where animals and humans, as the authentic Maasai and Hadza live together.

When you first see Ngorongoro Crater, it looks like a forgotten world. Concealed by the steep volcanic walls is a pristine wilderness including sweeping savannah, pockets of acacia woodland and glistening lakes and swamps. The Crater was created when a large volcano exploded and collapsed in on itself two to three million years ago. It is famous for both its geological delights and for being a natural reserve that is home to some of the densest large mammal populations in the whole of the African continent. The drive down into the Crater is an adventure in itself and when you reach the crater floor, you'll quickly find large numbers of wildebeest, zebra, gazelle, and more than 500 bird species. The Crater provides you with the best chance of seeing the endangered black rhino, which can sometimes be spotted in the open grasslands. Evening Back to Karatu Overnight stay.
